### ASSIGNMENTS

### COMMANDERS

### HONORS

Service Streamers

Campaign Streamers

Armed Forces Expeditionary Streamers

### Decorations

### EMBLEM

The general purpose bomb is a conventional weapon, but it has become the symbol of all munitions both conventional and special. It symbolizes the air power or vital "punch" that munitions give to our modern aircraft. Snoopy is a cartoon character famous for his originality,

intelligence, and extraordinary insight. We feel these characteristics characterize our munitions personnel. The open-end wrench symbolizes maintenance, in this case, munitions maintenance. Maintenance is our prime mission; we maintain all munitions so that they are always safe, always reliable, and always ready. The green color with the bright yellow background suggests the transition of new eager airmen into well trained professional airmen of the excellence required of Air Force munitions personnel. The cloud and birds are symbolizing the peace and serenity which we feel we help to promote throughout the world by always being ready. The color red is a sign of danger, but to a munitions man it is a constant reminder of the safety aspect associated with all munitions maintenance and storage. Our Squadron Motto is SAFE-RELIABLE-READY. Our personnel are safety conscious, our weapons are reliable, and we are always ready for any contingency. (Approved, 15 Nov 1967)
