

818 CIVIL ENGINEERING SQUADRON

MISSION

The mission of civil engineering squadron was to support the maintenance, fire-fighting services and construction oversight of Lincoln AFB.

"Provide all work and services in the management and custody of fixed real property (other than industrial), planning, programming, justification, acquisition and design and construction of new facilities; provide maintenance, repair, improvement and disposal of existing facilities; provides fire protection, crash rescue, janitorial and services

818 IS/CES personnel were involved with maintenance tasks on base which included everything from snow removal, carpentry, plumbing, HVAC, electrical, masonry, janitorial, grounds-keeping as well as fire-fighting and a multitude of other tasks.

Based predominantly out of the "CIO Compound" area to the south of the warehouse area and north of Motor Vehicle Squadron area, shops were provided for most of the specialties with various sheds and storage buildings available to store needed equipment such as snow plows, tractors, extra supplies, paints and a multitude of other items.
