

## 1010 CIVIL ENGINEERING SQUADRON

### MISSION

The 1010th Civil Engineering Squadron plays a key role in the operation and maintenance of Cheyenne Mountain AFB. Critical to this mission is the operation and maintenance of mechanical utility systems and the prime diesel power plant.

Additional services provided by the squadron are fire prevention and protection, snow removal, custodial services and normal technical shop support of all in-house maintenance, repair and minor construction.

The squadron provides planning, programming, engineering design and management of in-service work and minor construction projects. It also furnishes engineering liaison with and construction surveillance to the Army Corps of Engineers.
