RVN GC W/P
1 May 1970-28 Jan 1973

EMBLEM

The globe symbolizes the worldwide nature of the squadron's work. The eagle symbolizes the squadron's superior ability to perform quality installations and the primary method of travel for squadron personnel throughout the Pacific. The three lightning bolts symbolize the 1837th Electronics Installation Squadron; Det 1 at Clark AB, Philippines, and OL-A at Osan AB, Korea. The stars represent the major organizational elements within the unit; e.g., inside plant; cable; antenna; radio; radar-navaids; crypto-teletype, and support (all other squadron functions that assist the installation effort).
