MOTTO

OPERATIONS

The 31 Aerospace Medicine Squadron optimizes human performance, ensuring seamless employment of the 31 Medical Group's health initiatives in support of U.S. and NATO objectives throughout the Southern Region. The squadron integrates population-based preventive medicine services and guidance to enable peak mission readiness and sustained performance. In addition, it provides safety and operational medicine expertise, including proactive intervention, risk communication, and behavior modification for 9,200 beneficiaries.

The 31 Aerospace Medicine Squadron consists of six flights, including Public Health, Optometry, Flight Medicine, Aerospace Physiology, Bioenvironmental Engineering and Health Promotion. The 31 Aerospace Medicine Squadron provides care for flyers and their families.

Additionally, it runs the occupational health, fitness, tobacco cessation, deployment, industrial hygiene and optometry programs for the entire wing.
