

SPACE DELTA 7

MISSION

Space Delta 7 (DEL 7) is the operational Intelligence, Surveillance and Reconnaissance (ISR) element of the U.S. Space Force. The ISR Delta provides critical, time sensitive and actionable intelligence for space domain operations to allow for the detection, characterization and targeting of adversary space capabilities. DEL 7 employs a variety of fixed and mobile sensors across the globe operated by ISR professionals to enable the United States Space Force to gain and maintain space superiority.

Execute global ISR operations to gain and maintain information dominance in the space domain.

Deliver and drive space operations by providing timely, accurate and actionable intelligence in the execution of the National Defense Strategy priorities
