EMBLEM

90 Logistics Support Squadron emblem: Azure, between a wreath of ten mullets or a sword argent, grip gules, surmounting two sprigs of holly saltirewise vert; all within a diminished bordure yellow. Attached above the disc a blue scroll edged with a narrow yellow border. Motto:

Attached below the disc a blue scroll edged with a narrow yellow border and inscribed FOREVER VIGILANT in yellow letters. **SIGNIFICANCE:** The emblem is symbolic of the squadron and its mission. Ultramarine blue and Air Force yellow are the Air Force colors. Blue alludes to the sky, the primary theater of Air Force operations. Yellow refers to the sun and the excellence required of Air Force personnel. The sword represents the deterrent power of our nation's ICBM force. The holly branches denote the squadron's commitment to its personnel who effectively provide logistics support to the Air Force mission of deterrence through strength. The wreath of stars stands for the many functions the squadron provides to its parent organization (Approved, 15 Nov 1994)

90 Logistics Support Squadron alternate emblem significance: The sword within the patch represents the deterrent power of our nation's ICBM force and its swift retaliatory capability poised against our adversaries who threaten the freedom and tranquility of our country. The ten stars depict the ten original organizations, and their functions, assigned to the squadron upon its inception: Maintenance Programs, Maintenance Data, Maintenance Control, Technical Engineering, Scheduling Control, Materiel Control, Job Control, Logistics Plans, Training Control, and Team Training. The field's ultramarine blue color represents our devotion to duty and loyalty to our calling in defending the nation against enemies, both foreign and domestic. The yellow within the stars illustrates the noble values of excellence and honor we hold in common within the squadron. The holly leaves encircling the sword's grip, depicts our commitment to the mission and to our people. Without the two, the swift retaliatory response of our nation's deterrent capability is rendered ineffective. The green represents our adaptability to changing missions and the persistent uncertainty within international and national affairs.
