Mission: HQ SSG has a new name and something of a new mission, but the same quality and customer focus as the Air Force IT Center of Excellence for the Warfighter." As part of the AFMC-wide restructure, the Standard Systems Group has become the Operations and Sustainment Systems Group, underneath the newly formed Operations Support System Wing (headquartered at Hans-corn AFB, Mass.). The Group provides and .sustains worldwide comm-

computer capabilities for the National Command Authority, CJCS, unified combatant commanders, services and specified DoD and non-DoD agencies to direct military forces. As a part of its mission to provide and support integrated combat, support and business systems, the Group is responsible for the life-cycle management of selected C4 and standard information systems valued at \$15 billion and manages \$83 billion in contracts.
